Dear Cheryl,

I am delighted your introduction to Colonic treatments was productive, and that you felt safe throughout.

I really do commend you on being willing to experience what colonics can do, and make up your own mind about it. Your opinions then count for a lot with those toying with the idea of these treatments.

Thank you so much for recommending the treatments to your friend . 'Word of mouth' really is one of the best indicators for us that we are providing a useful service .

I look forward to seeing you for a follow up treatment to suit your needs.

Warm wishes

Julia

Thank you, Felicity.

I have written to you separately & privately with post colonic aftercare suggestions.

Look forward to seeing you again .

I really appreciate you taking the time to post your review.

Warm wishes

(17) Follow up to WLC only One star review back in April 2013 , one year ago.

WLC comment: 'Melea' graciously responded to the invitation we made to give her a treatment at a preferential rate.

Regrettably however, we weren't able to treat her because she had been on a course of steroids for a time, a contraindication for treatment. (I hadn't picked this up from the notes.)

Our hope is that once she is off the steroids, we can have another crack at offering her a treatment.

Third time lucky?

At any rate we hope we have patched up our rocky start to the therapeutic relationship with her, and repaired the poor first impression we gave- at least somewhat!
